<b>Instruction:</b>	Hello Smarter Appliances, Please attend to the following issues with the hob/oven:- Tenant's comment:- The hob and grill are working as intended, we've had ongoing issues with the oven ignition. Out of the five times we've attempted to use it, we were only able to successfully ignite it once, and during the cooking process the flame turned off so we had to reignite. As well as the oven ignition issues, the grill is now either not igniting, and/or it is cutting out part-way through cooking. This means lots of gas is going to waste and is being expended just to try and ignite the grill/oven in the first place, which in addition to the wasted expense, feels like a safety hazard. Please liaise with the tenant on the matter of access. With regards, Annabel
