**Supplier a/c no:** C512358

**Instruction:** Thé washing machine does not start. After having pressed the On Off button, having loaded the laundry and selected the program, when I press the Start/Pause button it does not start. It makes the usual sound but the cycle doesn't start- only the Lock flashes. I have drained the filter- it was clean. This happened last weekend after I came back from 2 weeks holidays. I loaded the washing machine once and it worked as usual- nothing suspicious. When I loaded it for second time I experienced the issue I described above.
