<b>Instruction:</b>	Hello Smarter Appliance, Please attend to issue of washing machine stopped spinning altogether over the weekend. Tenant's comment:-I managed to check and clean both the water inlets and the pump. This got the machine spinning again but now it is sparking each time it spins underneath the machine. So I think we have an issue with the electrics. We're concerned about the risk of an electrical fire so have disconnected it from the wall. Details: Front loader washing machine Make: Zanussi Model: ZWH 7122 J Please liaise with the tenant on the matter of access, Regards, Annabel
