Instruction:	Hello D & S, We have had report of the fuse board tripping the fridge freezer and have had an electrician called out. The electrician has advised the fault is with the fridge. Please attend to investigate the fault with the fridge to determine if it can be fixed or if a replacement would be required. Electrician's report: - We found the fridge to be at fault, we have replaced the fuse for the fridge, we have also reconfigured the consumer unit as a temporary fix for the time being so the fridge will be operational, until the existing appliance has been fixed or replaced. Please liaise with the tenant on the matter of access. Regards, Annabel
