Instruction:	Tenant has reported the following - please kindly attend to investigate: The dishwasher in the flat has stopped working, and shows a fault code now after running for a couple of minutes which suggests, per an online search, that it's no longer able to heat water. Could we please get someone out to take a look? Attaching a photo as well. The left-most button is blinking steadily, though I've caught it mid-blink in this photo so it's not apparent.
