Instruction:	Please investigate the fridge freezer - We have been having issues with the fridge since moving in in 2022 - this has been with the lack of a proper shelf (see image attached). Whenever the washing machine is used, anything on that shelf is knocked off as it is not properly fit or designed for the fridge. This was tolerable but now the freezer door is no longer properly closing so we are getting a build-up of ice inside the already-small freezer section
