Instruction:	Tenant has reported the following, please kindly attend to investigate fault with oven: Yesterday, we had severe issues with the oven. We were using the oven normally and when we were done, the oven automatically locked itself and we could not open it. We turned it off, but got so heated we had to call the firefighters because we thought it would have caused an incident. The oven was completely hot but, getting warmer and warmer, to a point we were scared for our safety. Fortunately, nothing happened, but the oven now does not turn on, so please, is it possible for you to send a technician to check this issue.
