<b>Instruction:</b>	Please can you attend to investigate issue with dishwasher tenant has advised 'Our dishwasher isn't properly washing and drying. This issue started Monday evening and yesterday we tried to see if there was a clog issue our end and follow advice on the internet but unfortunately neither of these worked. Our dishwasher is a hotpoint aquarius model FDL570 and after we try to do a wash cycle it will start washing however the one off button and wash lights start flashing when the 'dry cycle' starts. '
