Instruction:	Please attend to the following: The seal on the fridge is not working correctly: I need to push the door into place carefully when closing the fridge door, otherwise the food inside the fridge is not refrigerated correctly and goes off. In general, food stored inside this fridge is going off before supermarket expiring dates, because even with closing the door carefully, the seal is not working correctly. I think that the fridge needs to be serviced, and the seal may need to be replaced. [Appliance type: Fridge] [Appliance make: Gaggenau] [Appliance model: 200 Series] [Appliance S/N: Unsure] [Number of floors: 1] Note: The tenant would like to be present when the work is carried out. Thank you.
