<b>Instruction:</b>	Tenant has reported the following, I have asked for him to check all the fuse switches and he has confirmed all are on and therefore doesn't know why the extractor has stopped working. Please kindly attend to investigate: I was trying to replace one of the light bulb of the extractor fan as it blew out. Now the extractor fan is no longer working. I checked the fuse board and it's on, also all the other equipment in the kitchen are working fine. We will need a technician to come and have a look at it please
