<b>Instruction:</b>	The dishwasher has not been washing items fully and often finishes before the end of the cycle. The dishwasher fills with water and the 'brush' icon flashes. This usually indicates a blockage and we have tried to fix this on our side, though we presume there is a blockage further down the pipes which we can't reach. This has been going on for a while now and we now need help.[Appliance type: Dishwasher] [Appliance make: Siemens] [Appliance model: SI6P1S] Free parking not available.Pet information - No petsNote: The tenant would like to be present when the work is carried out.
