Instruction: Unfortunately there seems to be an issue with the Bosch washing machine in the flat. When we try to use it and begin a wash cycle, there is a clicking sound that comes from the machine and the cycle never actually begins. We've looked online and drained the waste water hose and checked for blockages as per Bosch's troubleshooting instructions but unfortunately the machine is still not working. Can you please arrange for an engineer to come this week to service the machine?[Appliance type: Washing machine] [Appliance make: Bosch] [Appliance model: Bosch Classixx 6] [Number of floors: 3] N/APet information - N/AAlarm information - N/AParking restrictions - N/ANote: The tenant would like to be present when the work is carried out.
