Supplier a/c no: C985023

Instruction:	Please can you attend to investigate the washing machine, the electrics keep tripping when the washing machine is turned on. Arranged for electrician to attend and they advised: Upon investigation, we've found that the cause of the issue is the washing machine, I was getting an IR reading of 0.01Mohm with the washing machine connected then 188Mohm with it disconnected. Also a continuity reading of 200ohms between L-E. A new appliance is needed or an appliance engineer to inspect the fault.
