Instruction:	Please attend to the below - dryer and dishwasher issues. Both are not displaying any error messages. With the dryer, we are able to start a cycle, but when it ends, the clothes would still be soaking wet. Same with the dishwasher, no error messages and can be turned on. When we start a cycle, it runs for about 30 seconds, make some noise, and then immediately begins beeping. The manual said the beeping means the cycle is complete. However, when we open the dishwasher, the dishes are completely dry.
