| Instruction: | Please can you attend this property as soon as, the tenants have reported;went away for the weekend and came back last night to find the kitchen lights not working. We flipped the switch in the fuse box and the lights, boiler, washing machine and fridge came back on but immediately went back off. Using a process of elimination we found that the fridge is causing the problem. We have switched it off at the mains and everything else is now working but we do need someone to attend to this urgently please as we do need a working fridge asap. |
